

# Airtel ATN products

Airtel ATN is an independent supplier of data communication software for the aviation industry, in particular the ATN (Aeronautical Telecommunication Network). Airtel ATN has been active in ATN since 1993 and is an international leader in the development of ATN communications software.

Airtel ATN's solutions focus on standards compliance, performance, quality and certification in line with best industry practices.

## Product

## Solution Area

Air/Ground Data Link Server

ANSP, ATM Systems Integrator

Air/Ground Router

ANSP, ACSP, ATM Systems Integrator

Ground/Ground Router

ANSP, ACSP, ATM Systems Integrator

Data Link Test Tools

ANSP

Airborne Router

Avionics Manufacturer

VDL Ground Station

ACSP, ATM Systems Integrator

### Test Tools

Ground ATC Data Link System Emulation Manual Tool

ACSP, Avionics Manufacturer, Airline, MRO, Regulator

Ground ATC Data Link System Emulation Automatic Tool

ACSP, Avionics Manufacturer, Airline, MRO, Regulator

Airborne Data Link System Emulation Manual Tool

ANSP, ACSP, ATM System Integrator, Regulator

Airborne Data Link System Emulation Automatic Tool

ANSP, ACSP, ATM System Integrator, Regulator

Multiple Airborne Data Link Systems Emulator

ANSP, ACSP, ATM System Integrator

Ramp Tester

Airline, MRO, Regulator

VDL Troubleshooter

MRO, Regulator

Testing Services

ANSP, Avionics Manufacturer, MRO, Regulator  
Systems Integrator

Engineering Services

ATM Systems Integrator

### VDL products

VDL

Airlines, Avionics Manufacturers, System Integrators

ACARS

Airlines, Avionics Manufacturers, System Integrators

VDB

Airlines, Avionics Manufacturers, System Integrators

Multi-Protocol Data Link Ramp (MPRT)

Airlines, Avionics Manufacturers, System Integrators
